COMMUNITY ART FACILITATOR TRAINING

The participants of this course will gain insight into multiple aspects of art, widen their own artistic skills, develop lesson plans for teaching art to children and youth groups, and experience many exercises for creative development. Every participant will lead a group of children or youth from a community of his/her choice to practice the learnt CAF skills and feedback the results to the training group. The participants will demonstrate their skills and are able to graduate with a certificate stating their accomplishment!

COMMUNITY ART FACILITATOR TRAINING 2016

Module One: Art in Early Childhood Development

We are creative beings. This module teaches how to nurture creativity in an early age.

Module Two: The Butterfly Art Project Method

We need healing. In this module we'll teach a monitoring tool of the artistic healing process.

Module Three: Creative Interaction

We are community. In this module we will discover how to form relationships between individuals in artistic group exercises for the greater good of society.
